President's Message

Wow...how did it get to be October already?! Depending on your stage in life, once again enjoying being an empty nester with kids returning to college, dealing with school zones and teachers, or maybe just settling in for a more standard routine,

autumn is upon us. Over the last couple of months, we at ASSP have also been going through a time of transition with our Executive Committee. The officership has turned over, and we have said goodbye to some of our long-standing

representation. We would like to thank Cynthia Rivera for her work as Secretary, Ryan Cowles for his work as Membership Director, Carol Walker for her representation as Delegate, and Janise Baldo for her support as Newsletter Editor.

Introduction of 2019/2020 NM ASSP Executive Committee

Please help us welcome our incoming 2019/2020 ASSP Executive Committee. We are lucky have such a great group of professionals representing our Chapter.

Monthly Technical Meetings

This year, we are trying something new with our technical meetings and will have a rotating versus standing location. Meetings will continue to occur on the second Thursday of the month but alternate between breakfast, lunch, and happy hour times & locations. Stay tuned for time/location details on the website, in the newsletter, and through ASSP communications.

Tentative Technical Meeting schedule is as follows:

- October 10th – 4:30-6:30pm @ Rio Bravo Brewing Company Barrel Room (stair access only)
- November 14th – Breakfast
- December – No Technical meeting
- January 9th – Lunch
- February 13th – Happy Hour
- March 12th – Breakfast
- April 9th – Lunch

- May 14th – Happy Hour
- June 11th – Breakfast

As always, we are looking for technical speakers for our meetings and appreciate ideas and leads. Please send inquiries to Bill White at vp@nm.assp.org or (505) 872-0005.

Planning for the 2020 Professional Development Conference is in full effect. If you would like to participate on the planning committee, volunteer, or present, please get in touch with Marc Evans at preselec@nm.assp.org or (505)284-5594.

October Technical Meeting**ES&H Professionals Integrating Into Business Success**

Integrating the full aspects of environmental, safety, and health (ES&H) practices into the traditional business model reflects a business philosophy beyond compliance. Achieving business success requires organizations to predict and prevent failures – including ES&H. Too often, organizations apply a failure-based philosophy to ES&H that requires spending key business

dollars on recovery efforts rather than on preventative measures. Adoption of a qualitative risk model beyond traditional hazards analyses proves a powerful tool to understand relative business risks. Consistent use of a single "simple" risk matrix with the appropriate definitions of consequence and frequency across various business aspects, beyond safety, provides an organization the ability to compare business risks – that includes the integration of ES&H into the business model.

ES&H professionals can successfully argue that investments in ES&H preventative programs will result in savings down the line for the business.

Speakers: Kelsey Forde CIH CSP CHMM & Timothy Stirrup REM ASP CHMM of Parvati Consulting LLC

Location: Rio Bravo Brewing Company Barrel Room – 1921 2nd St. Albuquerque, NM 87102
 The Barrel Room is upstairs with stair access only
